DETAILED ACTION

Response to Amendment

1. The amendment February 9, 2006 has been entered and considered. Previous amendments cancelled Claims 1 – 46 and Claims 47 – 54 are cancelled in the current amendment. No claims were amended and claims 55 – 59 were added. Thus, the currently pending claims considered below remain Claims 55 - 59.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 55 - 59 are rejected under 35 U.S.C. 102(e) as being anticipated by

Agarwal et al (6,509,910).

Claim 55: Agarwal discloses an apparatus for providing image displaying services comprising:

- a. Advertising information receiving means for receiving advertising information from an advertiser. (Col 2, line 60 through Col 3, line 9)

- b. Image receiving means for receiving image data from a user terminal. (Col 2, line 60 through Col 3, line 9)
- c. First display controlling means for displaying thumbnail images corresponding to the image data at the user terminal. (Col 14, lines 27 – 40).
- d. Selection receiving means for receiving a selection at the user terminal of a displayed thumbnail image. (Col 14, lines 41 – 52 and Col 20, lines 30 – 52)
- e. Second display controlling means for displaying image data corresponding to the selected thumbnail image with the received advertising information at the user terminal. (Col 14, lines 41 – 52 and Col 20, lines 30 – 52)

Claim 56: Agarwal discloses an apparatus according to Claim 55, further comprising:

- a. Third display controlling means for displaying a service menu at the user terminal. (Col 14, lines 41 – 52 and Col 15, lines 18 – 30)
- b. Receiving means for receiving a request of the service menu from the user terminal, wherein the first display controlling means displays the thumbnail images at the user terminal in response to the request received by the receiving means. (Col 14, lines 41 – 52; Col 15, lines 18 – 30; and Col 20, lines 30 – 52)

Claim 57: Agarwal discloses an apparatus according to Claim 55, wherein the image receiving means receives the image data via a cable head end. (Col 2, line 64 – Col 3, line 9; and Col 23, lines 17 – 20)

Claim 58: Agarwal discloses a method for providing image displaying services comprising the steps of:

- a. Receiving advertising information from an advertiser. (Col 11, 35-65 and Col 12, lines 13 – 43)
- b. Receiving image data from a user terminal. (Col 11, 35-65 and Col 12, lines 13 – 43)
- c. Displaying thumbnail images corresponding to the image data at the user terminal. (Col 14, lines 27 – 52 and Col 20, lines 30 – 52)
- d. Receiving a selection at the user terminal of a displayed thumbnail image. (Col 14, lines 27 – 52 and Col 20, lines 30 – 52)
- e. Displaying image data corresponding to the selected thumbnail image with the received advertising information at the user terminal. (Col 10, lines 20 – 45)

Claim 59: Agarwal discloses a computer-readable memory medium having computer executable process steps stored thereon, wherein said process steps comprise:

- a. A first receiving step for receiving advertising information from an advertiser. (Col 11, 35-65 and Col 12, lines 13 – 43)
- b. A second receiving step for receiving image data from a user terminal. (Col 11, 35-65 and Col 12, lines 13 – 43)

- c. A display step for displaying thumbnail images corresponding to the image data at the user terminal. (Col 14, lines 27 – 52 and Col 20, lines 30 – 52)
- d. A selection-receiving step for receiving a selection at the user terminal of a displayed thumbnail image. (Col 14, lines 27 – 52 and Col 20, lines 30 – 52)
- e. A second display step for displaying image data corresponding to the selected thumbnail image with the received advertising information at the user terminal. (Col 10, lines 20 – 45)

Response to Arguments

- 4 Applicant's arguments filed February, 9, 2006 have been fully considered but they are not persuasive. The applicant first argues that the Agarwal patent does not disclose or suggest displaying image data together with advertising information in correspondence to a selected thumbnail image. However, as pointed out in the above rejection Agarwal does disclose such features. Applicant has already agreed that Agarwal teaches that the DMF dedicates a portion of the screen to pictorial display while another portion of the screen is apportioned to informational display, which might be advertising. Therefore, the applicant is directed to Col 14, lines 41 – 52 of the Agarwal patent. This section discloses that the DMF can have multiple screens. One of these screens displays the contents of a global storage. When a user selects an icon in the global storage it is transferred to the DMF storage. Once the thumbnail image that contains advertisement is in the local DMF storage, then it

can be displayed. A direct recitation of selecting the thumbnail for display can be found in Col 20, lines 45 – 46.

Conclusion

- 5 **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
